Summary

- Software engineer with 7 years of professional experience in developing and maintaining technical solutions across the web and mobile ecosystem.
- Proven expertise in working with frontend, backend, database and cloud technologies such as Amazon Web Services (AWS), Google Cloud Platform (GCP), and Microsoft Azure.
- Great communication skills as a strong team player, with an established record of delivery working in cross-functional teams.

Experience

Senior Frontend Developer

Sabi

Mar 2024 - Present (1 month)
- Collaborated on the frontend application module, using React, Next.JS, MUI, and React Query.
- Built CI pipelines for handling predeployment issues using GitHub Actions.
- Resolved 70% of project UI issues.

Co-Founder/Engineering Lead

Reshare

Mar 2023 - Present (1 year 1 month)
- Lead two teammates throughout the development lifecycle of the product.
- Initiated the system architecture design for the platform, prioritising using cloud infrastructure.
- Developed the REST API and its documentation for team members.
- Supervised the development of the frontend application providing feedback on UI components designed on Figma.

Technical Consultant

Haelsoft

Mar 2020 - Present (4 years 1 month)

Frontend Engineer

Albantsho

Aug 2023 - Nov 2023 (4 months)
- Recruited to develop a core document-based editor which served as the product's code editor for screenwriters to manage content.
- Merged incremental changes and product features to both the user dashboard and API of the product.

Frontend Engineer

Frame

Sep 2022 - Mar 2023 (7 months)

- Developed the user interface dashboard for the wiki application module.
- Periodically contributed to the maintenance of the APIs, deployed via AWS, through code contributions, team reviews and QA feedback on different versions of the product.
- Integrated core UI components from design requirements documented on Figma.
- Resolved legacy issues that boosted the application performance by at least 20%.

Full Stack Engineer
Vitract

Apr 2022 - Feb 2023 (11 months)
- Built a portal for the company payment portal that was used to process membership subscriptions via Stripe; this improved user acquisition by 40%.
- Implemented reporting standards for the organization utilizing data visualization tools.
- Participated in recruitment, mentorship and conducting of onboarding cycles with the new hires.

Senior Software Engineer
Lenkie

Aug 2021 - Sep 2022 (1 year 2 months)
- Contributed to the development of the OpenID Identity Server using .NET, enabling us to have a single sign-on system for the micro frontends developed.
- Optimized the onboarding process by at least 20%, by developing a streamlined interactive dashboard that reduced client interaction time by 8 minutes and allowed for easy access to services and data.
- Implemented administrative interfaces and tools that facilitated effective underwriting, credit checks and management of client data and repayment collections.
- Built user interfaces, client widgets (for lead generation) and libraries/SDKs for integrations with partner platforms which saw us facilitate 5 partner platforms conversion within the first 4 months.
- Led the redesign and implementation, across web and media assets, of the brand identity for the company.

Lead Software Engineer
Loanspot Africa

Sep 2020 - Jun 2021 (10 months)

Software Engineer
Andela

Mar 2019 - Mar 2020 (1 year 1 month)

Full Stack Engineer
Wild Fusion Limited

Feb 2018 - Feb 2019 (1 year 1 month)
- Built USSD solutions to power media campaigns targeted at 8 million+ people in Nigeria during the public/religious holidays.
- Developed alternative payment channels for organisations using SMS/IVR/USSD

Education

University of Nigeria, Nsukka

B. Urp, City/Urban, Community and Regional Planning

2010 - 2015

Licenses & Certifications

Toggl Hire Java Script Skill Test Certificate - Toggl Hire

pkyz4p
